HFRS Weekly Wrap

Dear Parents,

It has been a busy week at Holy Family Regional School and I really appreciate your cooperation and understanding as we navigated the loss of power at South Campus. We prayed for all of our families without power and hope that all has been restored as we head into the long weekend.

This Week's Happenings:

- Rochester bus transportation started up this week, and I am thankful to everyone for their patience as the bus drivers get oriented to their new routes and traffic patterns. Our families are also learning the pick-up and drop-off procedures at both campuses, and I appreciate your adherence to the procedures that assist with this process as well. Please remember that parents picking up children on the north side of the school should walk in front of the bus lines and not cut through the parked buses. Also, please take note that parking **is not allowed on Inglewood during these busy times**.
- Our Meet the Teacher Night at North Campus was a great success. Thank you for helping us maintain a safe and holy environment for your children. I am grateful to our faculty and staff for the classroom presentations.
- We had our first fire drill today and the students did an excellent job with the evacuation practice. By law, our school is required to have five fire drills, three lock down drills, and two tornado drills. The drills are documented and posted on our website after the drill is completed.
- The Bluepoint Security system is in the process of being installed at both campuses and should be operational within the upcoming weeks. Our staff and students will receive training and test notifications will be sent to our parents. More information will be provided to our parents after the completion of the installation.
- Our school has a close partnership with both the Rochester Police and Fire Departments as well as the Oakland County Sheriff's office. You will see them on our campuses periodically to assist with traffic and also greet students. Every year we review our crisis plans with the local authorities and we are well prepared to address any crisis situation.
- Tickets for the Fall Festival are now on sale! Tickets are available on our website or at the door. Be sure to look for more information in this week's Wrap about this amazing event.

As we head into the weekend, let us thank God for the many blessings of this past week. Let us continue to pray for the children of our school, that they be drawn to Christ, and know that they are children of God, and are loved.

Wishing you many blessings,

Mr. Jon Myers

An Idea from Mike Chopp – Include a small prayer about Fun at School

Jesus, I ask that my child's school year would be filled with sweet memories that they will cherish for their lifetime. Infuse their days with fun that will keep them filled with joy as they grow and learn. Give them a cheerful face that is contagious as they walk through this school year. Amen. (by Amanda Idleman)

The Film

A suicide attempt left 16-year-old varsity cheerleader, Emma Benoit, paralyzed, but propelled her on a mission to use her painful experience to **help others find hope and stay alive.**

MY ASCENSION is a feature length documentary that chronicles Emma's inspiring journey and quest to walk again, as she works to bring Hope Squad, a school-based suicide prevention program, to Louisiana.

The film also highlights the stories of two remarkable young people who tragically did not survive their attempts, and we learn first-hand from their families, friends, school officials and suicide prevention experts about the devastating effects of suicide and **what can be done to prevent it.**

20 young people die by suicide every day in the U.S

Why this film is needed

Suicide is a silent epidemic that is not receiving the attention it deserves. It is the second leading cause of death for young people under 25 and there are approximately 1.2 million suicide attempts every year. The ripple effects of these deaths and attempts devastate millions more.

MY ASCENSION shines light on the reality of this ongoing public health crisis and is positively impacting the lives of young people, families, schools, and communities by sharing hope, information and best practices that can be replicated around the world.

When suicide attempt survivors, such as Emma, share their stories of recovery, it often prevents others from attempting.

A must watch for parents of teens and anyone working with teens.

Emma's ability to tell her story in such an honest way creates a space for others to speak freely about their own issues with mental health.
